PERSONAL PROFILE

Detail-oriented and proactive in the Cybersecurity field with experience in penetration testing both in web applications and mobile. Adept at conducting vulnerability assessments to protect organizational assets. Expertise in network management, CCTV configuration. Passionate about continuously improving security posture and staying updated on emerging threats and technologies.

SKILLS AND COMPETENCIES

- **Security Tools:** Wireshark, Nessus, Metasploit, Kali Linux, Burp Suite, Firewalls.
- **Incident Response:** Threat analysis, malware analysis, forensics, root cause analysis
- **Risk Management:** Vulnerability assessments, penetration testing, threat intelligence
- **Programming:** HTML, CSS, and intermediate in Python
- **Network Security:** Proficient in Cisco IOS, CCNP-level core networking, and packet analysis using Wireshark.
- **Vulnerability Management:** Experienced in the OWASP Top 10 and automated scanning tools like Burp Suite.
- **Forensics & Programming:** Skilled in digital forensics investigations and automating security tasks using Python scripts

Soft Skills

Problem-solving, critical thinking, attention to detail, communication

EMPLOYMENT HISTORY

IT SUPPORT (June 2025 – Present)

Promo Kings

- Configuring CCTV (Closed-Circuit Television) Camera
- Managing computers

- Network Configuration in the departments within the Promo Kings company
- Troubleshooting Networks and Telephone Lines (landline)
- Conducting and Managing Telephone Line Configuration
- Setting up one computer to act as file sharing and storage Server.

Information Security Department Attachment (May 2024- August 2024)

Eclectics International Limited-Nairobi, Kenya

- Conducting Penetration testing of both mobile applications and web applications.
- Conducting malware analysis Working together with Members of the department.
- Learning to use penetration tools like Burp Suite, Nmap, ZAP Proxy, and Mobile Security Framework.
- Conducting cross-site scripting (XSS) in both mobile and web applications using XSS Hunter.
- Conducting HTTP probing using the HTTPX tool

EDUCATION

- **Jaramogi Oginga Odinga University of Science and Technology:** Bachelor of Science in Computer Security and Forensics: Second Class Honors Upper Division

(September 2021 – December 2025)

PROFESSIONAL TRAINING AND CERTIFICATIONS

ALX Africa (August/2022 – September/2023)

Learning how to develop web applications using the Programming languages HTML, CSS, JavaScript-ReactJs, and an introduction to Python

CYBER SHUJAA (May/2024-August/2024)

Cloud And Network Security

Cisco Certification Training (April/2024-December/2024)

Introduction to data science.

CCNA 1: introduction to networks

CCNA 2: switching, Routing, and Wireless Essentials

CCNA 3: Enterprise networking, security, and automation

CCNP: Core networking

Ethical Hacker: Learn to use penetration tools, develop a security policy, and carry out hands-on labs on the Cisco platform.

TryHackMe

Cybersecurity Fundamentals (<https://tryhackme.com/r/dashboard>) Completed multiple beginner-to-intermediate level cybersecurity labs, focusing on DNS in detail, Linux Fundamentals parts 1, 2, and 3

IBM Skills Build (December/2024 – December/2024)

cybersecurity Fundamentals

Coursera

Foundation to cybersecurity

Manage security risk

Network and network security

Hack The Box

hands-on skills in Intro to network traffic analysis, Web Requests, and Introduction to Web Applications.

Huawei

Development and Basic Concepts of Cloud Computing

Volunteer Experience

ITATU- Working on a telephone farming project on how we can implement telephones in the agriculture sector. (November/2023 – February/2024) <https://telefarming.pages.dev/>

Kenya Film Commission, in conjunction with Siaya Digital Hub

Trained on Editing

REFEREES

Available Upon Request
